

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

Chemical and Pharmaceutical Directory

aller

Chemicalien und Zusammengesetzten Arzneimittel

welche in den Apotheken gehalten werden;

ihre Namen und Synonyme alphabetisch geordnet.

In drei Abtheilungen:

- I. Englische, lateinische und deutsche Namen.
 - II. Lateinische, deutsche und englische Namen.
 - III. Deutsche, lateinische und englische Namen.
-

Ein unentbehrliches Handbuch für Druggisten, Apotheker, Aerzte und das wissenschaftlich gebildete Publikum.

Von

John Rudolphy.

Chicago, Ill., 1877:

JOHN RUDOLPHY, 389 SOUTH HALSTED STREET.

Sowie in allen Buchhandlungen.

Chemical and Pharmaceutical Directory

OF ALL THE

CHEMICALS AND PREPARATIONS

(COMPOUND DRUGS.)

NOW IN GENERAL USE IN THE DRUG TRADE.

Their Names and Synonyms Alphabetically Arranged.

IN THREE PARTS:

- I. ENGLISH, LATIN AND GERMAN NAMES.
 - II. LATIN, GERMAN AND ENGLISH NAMES.
 - III. GERMAN, LATIN AND ENGLISH NAMES.
-

AN INDISPENSABLE HANDBOOK FOR EVERY DRUGGIST, PHYSICIAN AND THE INTELLIGENT
PUBLIC IN GENERAL.

BY

JOHN RUDOLPHY.

CHICAGO, ILL., 1877:

JOHN RUDOLPHY, 389 SOUTH HALSTED STREET,

AND IN ALL THE PRINCIPAL BOOKSTORES.

PREFACE.

I take pleasure in presenting to Druggists, Physicians and an intelligent Public in general, my **CHEMICAL AND PHARMACEUTICAL DIRECTORY**. I have aimed to supply a long felt want, as such a Hand-book is indispensable to every Apothecary, Druggist and Physician. I trust, therefore, that the same will find as favorable a reception as my well known Pharmaceutical Directory. It contains the names and synonyms of all Compounds and Preparations which are in use by Druggists, Physicians and the Public in general, in three parts, alphabetically arranged, in English, Latin and German.

There were many difficulties in connection with the alphabetical arrangement, therefore I have placed all Oils, Syrups, Tinctures, Waters, etc., etc., under one head, so that the finding of any certain article would thereby be facilitated. As many names in English, Latin and German correspond, and many German names cannot be translated, one should, if a name does not appear in the English part seek it in the Latin or German part, and *vice versa*. In recommending this work I feel assured it will fulfill its purpose, and herewith submit it to a discerning Public.

JOHN RUDOLPHY.

Chicago, Ill., January, 1877.

" Einreibung.	Linimentum phenylatum.	Liniment, carbolated.
" haltige Erde.	Terra carbolisata.	Carbolated clay.
" Säure Essig.	Acetum phenylatum.	Carbolated vinegar.
" " Gurgelwasser.	Gargarisma acidi carbolic.	" gargle.
Carbolsaures Kali.	Kali carbolicum.	Potassa, carbolate.
" " Papier.	Charta carbolisata.	Carbolated paper.
Carbolsaures Pflaster.	Emplastrum phenylalum.	Carbolated plaster.
Carbolsalbe.	Unguentum acidi carbolic.	Carbolic salve.
Carbolseife.	Sapo phenylatus communis.	" soap.
" wohlriechende.	" nobilis.	" " scented.
Carbolsyrup.	Syrupus acidi carbolic.	Syrup of carbolic acid.
Carbolsaure Waschflüssigkeit.	Liquor phenylatus cosmeticus.	Carbolated wash.
Carbolwasser.	Aqua phenylata simplex.	Carbolic water.
" starkes.	" " duplex.	Strong carbolic water.
" verdünntes.	" " diluta.	Diluted carbolic water.
Carbothialdin.	Carbothialdinum.	Carbothialdin.
Cascarillin.	Cascarillinum.	Cascarillin.
Catechin.	Catechinum.	Catechin.
Catechu, gekörntes.	Catechu granulatum.	Granulated catechu.
" Pulver, zusammengesetztes.	Pulvis catechu compositus.	Compound catechu powder.
Cathartin.	Cathartinum.	Cathartin.
Caulophyllin, <i>obtained</i> from Blue cohosh.		
Cementfirnis.	Vernix caementaria	Cement.
Cer oder Cerium. [krystallisirtes.	Cerium. [lisata.	Cerium.
" Ammonium, schwefelsaures,	Cerio ammonia sulphurica crystal-	Cer ammonia, sulphate, crystals.
" Kobalt, salpetersaures, krystal-	" cobalto nitrica crystallisata.	" cobalt, nitrate, crystals.
[isirtes.		
" Magnesia, salpetersaure, kry-	" magnesia nitrica crystallisata.	" magnesia, nitrate, crystals.
[stallisirtes.		
" Nickel, salpetersaures, kry-	" niccolo nitrica crystallisata.	" nickel, nitrate, crystals.
" Oxyd. [stallisirtes.	Cerium oxydum.	Cerium, oxide.
" " klessaures,	" oxalicum.	" oxalate.
" " salpetersaures.	" nitricum.	" nitrate.
" " schwefelsaures.	" sulphuricum.	" sulphate.
" Oxydul. [sirtes.	" oxydulatum.	" oxidule.
" Zink, salpetersaures, krystalli-	Cerio zinco nitricum crystallisatum.	Cer zinc, nitrate, crystals.
Cerasein, <i>obtained</i> from Choce cherry.		
Cerat oder Wachsalbe.	Ceratum simplex.	Simple cerate.
" Blei in Tafeln.	" plumbi tabulatum.	Cerate lead, in cakes.
" " zusammengesetztes.	" " compositum.	" of lead, compound.
" gewöhnliches.	" commune.	Simple olive oil cerate.
" Mandelöl, <i>see</i> Cerat.		
" Narben.	" calaminae.	Calamine cerate.
" Pech.	" picis.	Pitch plaster.
" Quecksilber, zusammengesetz-	" hydrargyrum compositum.	Scott's dressing.
" rothes. [tes.	" rubrum.	Red cerate.
" Seifen.	" saponis.	Soap cerate.
" Spanischfliegen.	" cantharidum.	Spanish fly cerate.
" weisses.	" cetacei album.	Simple cerate.
" Zink, kohlenaures.	" zinci carbonatis.	Carbonate of zinc cerate.
Ceresin.	Ceresina.	Artificial wax.
Cerit.	Ceritum.	Cerit.
Ceromel, <i>see</i> Wachshonig.		
Cetin.	Cetinum purum.	Cetin, pure.
Chamäleon, mineralisches, <i>see</i> Kali,	mangansaures.	
Champagnerwein.	Vinum campanicum.	Champaign.
Charpie, faulniswidrige.	Lintum antisepticum.	Antiseptic lint.
" schwarze.	Linamentum nigrum.	Black lint.
